

BATHROOM COLLECTION

La Visione A Statement of Contemporary Elegance

Born from the spirit of Italian design, this collection reflects a harmony of precision and poetic form. Each silhouette is sculpted with intention, where refined lines meet luminous finishes in effortless balance.

Inspired by the architectural grace of Milan, every piece expresses quiet authority — bold in presence, subtle in detail.

Created for interiors where design is not decoration, but identity.

CRAFTSMANSHIP

At Verona Rubinetterie Milano, craftsmanship is not a process; it is a legacy. Each creation is shaped by skilled artisans whose expertise has been refined over decades. Advanced CNC precision meets human mastery, ensuring flawless geometry and enduring strength.

Every detail is measured with exacting discipline, achieving dimensional accuracy within the finest tolerances. The result is a product that reflects Italian devotion to perfection, quiet, precise, uncompromising.

STRICT SELECTION OF MATERIALS

Excellence begins at the source. We select only premium-grade copper alloys, engineered to deliver resilience against corrosion, pressure, and time itself.

Balanced in composition and refined in structure, each casting is designed to preserve purity, brilliance, and performance. This dedication to material integrity ensures that every Verona piece carries not only beauty, but lasting reliability.

QUALITY MANAGEMENT

At Verona Rubinetterie Milano, quality is not inspected at the end; it is embedded from the beginning. Every stage of production is guided by meticulous supervision and disciplined precision.

From design refinement to final assembly, each component undergoes rigorous evaluation to ensure aesthetic integrity and enduring performance. The result is a standard that does not merely meet expectations, it elevates them.

DESIGN PROOFING

True design is perfected before it is revealed. Each concept is carefully tested, refined, and re-evaluated to achieve structural harmony and functional excellence.

Through advanced modeling and controlled simulations, we ensure that every detail performs flawlessly under real conditions. This devotion to precision guarantees that beauty and reliability exist in seamless balance in every space it inhabits.

About Verona

Rubinetterie Milano

Founded in 1991, in the vibrant design capital of Milan, Verona Rubinetterie Milano was born from a simple yet powerful vision to transform Italian artistry into timeless expressions of water and form. Inspired by the architectural grace of Florence, the sculptural heritage of Rome, and the refined modernity of Milan, the brand began as a modest atelier devoted to precision and beauty.

From those early beginnings, guided by dedication and craftsmanship, Verona evolved into a name recognized far beyond Italy's borders. Today, our creations travel from Europe to the world's most distinguished interiors, carrying with them the essence of Italian design culture.

Blending traditional techniques with advanced engineering, each piece reflects over three decades of experience, innovation, and devotion to excellence. Verona Rubinetterie Milano stands as a testament to enduring quality where elegance is not imposed, but naturally expressed.

PVD FINI- SHES

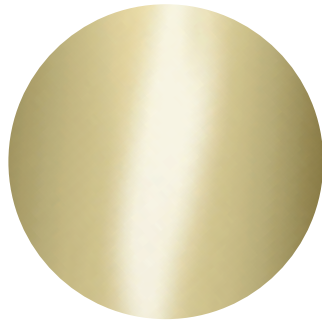

ADVANCED SURFACE TECHNOLOGY

PVD (Physical Vapor Deposition) is an advanced coating process in which a fine metallic layer is bonded to the surface at a molecular level. This technology enhances durability, strengthens corrosion resistance, and preserves color richness over time.

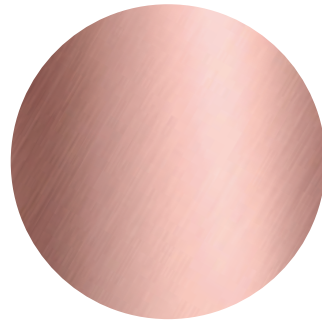

At Verona Rubinetterie Milano, we apply PVD to ensure our faucets maintain their brilliance, resist daily wear, and retain their architectural elegance for years to come.

ARCHITECTURAL EXPRESSIONS

MADISON GEOMETRY IN MOTION

The Madison Collection draws inspiration from the refined architectural rhythm of Milan. The distinctive cross-textured handle reflects the intricate latticework found in historic Italian facades and the geometric stone patterns seen across Florence and Turin.

This subtle yet deliberate detailing is not merely decorative; it captures light, enhances grip, and introduces tactile sophistication. The intersecting lines echo the structured symmetry of Renaissance architecture, where balance and proportion define beauty.

With its sleek silhouette and textured precision, Madison unites modern clarity with classical structure, transforming geometry into an expression of elegance.

ELEGANZA SENZA TEMPO INCONTRA IL DESIGN CLASSICO

La Collezione Madison è una fusione perfetta di design moderno e lusso classico, offrendo un equilibrio ideale tra linee eleganti e estetiche raffinate. Realizzati con precisione, ogni rubinetto e miscelatore doccia di questa collezione è disponibile in diverse finiture, permettendo una personalizzazione per adattarsi a qualsiasi arredamento del bagno. L'appeal senza tempo della collezione esalta l'eleganza sia degli spazi contemporanei che tradizionali. Progettati per combinare stile e funzionalità, i rubinetti e miscelatori doccia Madison offrono un tocco sofisticato che eleva l'atmosfera di ogni bagno, rendendoli la scelta ideale per chi cerca qualità ed eleganza senza pari.

COMO

INSPIRED BY
THE SERENITY OF
LAKE COMO

Named after the timeless beauty of Lake Como, this collection reflects the quiet elegance and fluid harmony of northern Italy's most celebrated landscape. Just as the lake mirrors the surrounding mountains with effortless grace, the Como Collection embodies clarity, balance, and composure.

Its elongated silhouette and seamless curves echo the gentle flow of water against stone villas that line the shores of Como. The design is restrained yet expressive, refined in detail, and powerful in presence.

Crafted to capture light with subtle brilliance, Como transforms simplicity into sophistication, bringing the tranquility of Italian nature into contemporary interiors.

RAFFLE

RENAISSANCE PROPORTION REIMAGINED

The Raffle Collection draws inspiration from the commanding symmetry of Italian Renaissance architecture, echoing the balanced façades of Roman palazzos and the disciplined horizontals of Florentine stone structures. Its design is defined by strength, clarity, and architectural presence, expressed through a bold rectangular silhouette that reflects the structured harmony of classical proportions. Every horizontal and vertical line exists in deliberate equilibrium, where solid planes meet with precision to create a form that feels grounded, confident, and enduring. Raffle is not ornamental; it is intentional a sculptural expression of balance and authority, crafted for interiors that demand structure, presence, and timeless discipline.

RENAISSANCE PROPORTION REIMAGINED

La collezione Raffle trae ispirazione dalla silhouette imponente dell'architettura rinascimentale italiana, che richiama le facciate equilibrate dei palazzi romani e le linee orizzontali disciplinate delle strutture in pietra fiorentine. Il suo design è definito da forza, chiarezza e presenza architettonica, espressa attraverso una sagoma rettangolare audace che riflette l'armonia strutturata delle proporzioni classiche. Ogni linea orizzontale e verticale esiste in un equilibrio deliberato, dove i piani solidi si incontrano con precisione per creare una forma che appare solida, sicura e duratura. Raffle non è un elemento ornamentale; è un'espressione scultorea intenzionale di equilibrio e autorevolezza, pensata per interni che richiedono struttura, presenza e disciplina senza tempo.

LEGEND

INSPIRED BY ROMAN TRAVERTINE

The Legend Collection draws its inspiration from the timeless surfaces of Roman travertine the stone that shaped the monuments of ancient Rome. The distinctive dotted texture of the lever subtly echoes the natural pores found within this noble material, serving as a refined reminder of strength shaped and perfected by time. This micro-textured detailing is both tactile and architectural, designed to soften light, enhance grip, and introduce a quiet depth that transforms simplicity into character. Balanced by a strong cylindrical form, Legend reflects the enduring presence of Roman columns structured, grounded, and unapologetically bold a tribute to material authenticity thoughtfully reimagined for contemporary living.

ISPIRATO AL TRAVERTINO ROMANO

La collezione Legend trae ispirazione dalle superfici senza tempo del travertino romano, la pietra che ha plasmato i monumenti dell'antica Roma. La caratteristica texture punteggiata della leva riecheggia sottilmente i pori naturali di questo nobile materiale, fungendo da raffinato promemoria della forza plasmata e perfezionata dal tempo. Questi dettagli micro-testurizzati sono sia tattili che architettonici, progettati per attenuare la luce, migliorare la presa e introdurre una profondità silenziosa che trasforma la semplicità in carattere. Bilanciata da una robusta forma cilindrica, Legend riflette la presenza duratura delle colonne romane: strutturata, solida e sfacciatamente audace, un omaggio all'autenticità dei materiali, sapientemente reinterpretata per la vita contemporanea.

ROYAL SWAN

WHERE ART BECOMES WATER

The Royal Swan Collection is inspired by the grace, strength, and majesty of the swan a timeless symbol of royalty and elegance. Sculpted with intricate detailing and flowing curvature, each piece transforms the basin into a statement of classical grandeur. From the elegantly arched neck to the finely crafted wings, the design captures a sense of motion, balance, and artistic precision, elevating it beyond mere function. More than a faucet, it becomes a true centerpiece reflecting heritage, luxury, and decorative mastery in every detail. Royal Swan is not subtle; it is sovereign in presence, crafted for interiors that celebrate opulence, legacy, and timeless European charm.

DOVE L'ARTE DIVENTA ACQUA

La collezione Royal Swan si ispira alla grazia, alla forza e alla maestosità del cigno, simbolo senza tempo di regalità ed eleganza. Scolpito con dettagli intricati e curve fluide, ogni pezzo trasforma il lavabo in un'affermazione di grandezza classica. Dal collo elegantemente arcuato alle ali finemente lavorate, il design cattura un senso di movimento, equilibrio e precisione artistica, elevandolo oltre la mera funzione. Più di un semplice rubinetto, diventa un vero e proprio pezzo forte che riflette tradizione, lusso e maestria decorativa in ogni dettaglio. Royal Swan non è un oggetto discreto; è sovrano nella sua presenza, realizzato per interni che celebrano l'opulenza, la tradizione e l'intramontabile fascino europeo.

PALAZZO

MATT
BLACK

POLISHED
GOLD

ROSE
GOLD

REFINED ELEGANT

The Palazzo Collection embodies refined sophistication through sculpted form and elevated detailing. Inspired by the grandeur of Italian palatial architecture, its cylindrical silhouette is enhanced with precision-textured accents that capture light with subtle brilliance.

Balanced proportions and graceful curvature create a harmonious presence, while premium finishes add depth and distinction. Designed for interiors that value elegance without excess, Palazzo transforms everyday functionality into a statement of timeless luxury.

Where craftsmanship meets quiet opulence.

GLAM

DEFINED BY ELEGANCE

The Glam Collection is a celebration of bold refinement and luminous detail. Designed to command attention, its sculpted cylindrical form is elevated by precision-cut texture that reflects light with captivating brilliance.

Each finish enhances its distinctive surface — from the depth of Matt Black to the radiance of Polished Gold and the warmth of Rose Gold. Glam transforms contemporary minimalism into expressive luxury.

COUTURE

The Couture Collection embodies fluid sophistication inspired by the natural purity of water in motion. Its elongated curves and seamless transitions create a silhouette that feels organic, graceful, and effortlessly composed.

Designed to interact beautifully with shadow and ambient light, each finish enhances the depth of its sculpted form. The result is a presence that feels calm yet captivating — subtle yet undeniably refined.

Couture does not demand attention. It earns it through elegance.

PREMIUM

DEFINED BY PURE GEOMETRY

The Premium Collection draws inspiration from the disciplined lines of contemporary Italian architecture. Its bold square silhouette reflects the structured verticality of Milan's modern skyline — precise, confident, and uncompromising.

Flat planes meet at exact angles, creating a composition rooted in balance and architectural clarity. Free from ornamentation, the design speaks through proportion alone.

Available in luminous finishes and commanding Matt Black, Premium embodies controlled strength — where minimalism becomes statement.

A form reduced to its essence. A presence defined by precision.

MATT BLACK

PREMIUM SERIES

YOKO

LUMINOUS DETAIL. REFINED HARMONY.

The Yoko Three-Hole Mixer introduces a refined balance of purity and ornamentation. Its graceful arch is complemented by sculpted crystal handles, adding a subtle brilliance to the composition. The faceted texture captures and refracts light, creating a delicate sparkle that enhances the elegance of the overall form.

Designed for interiors that appreciate quiet luxury, the crystal controls offer both tactile precision and visual sophistication. The contrast between smooth metallic surfaces and textured glass detailing transforms the basin into a statement of modern refinement — where clarity, balance, and craftsmanship exist in perfect harmony.

DOMIE

FLUID FORM.
SCULPTED
SIMPLICITY.

The Dome Three-Hole Mixer embodies softness in structure and clarity in design. Its gently curved spout flows effortlessly into space, creating a silhouette that feels continuous and organic. Paired with refined crystal controls, the composition balances smooth metallic surfaces with subtle texture and light reflection.

Designed for interiors that favor understated luxury, Dome transforms the basin into a harmonious focal point. The three-hole configuration enhances proportion and symmetry, while its rounded geometry introduces warmth and visual ease. Contemporary in spirit yet timeless in presence, Dome reflects sophistication through fluid form and refined detail.

MADISON PVD FINISHES

Its structured silhouette and textured lever detailing are elevated through a molecularly bonded coating that preserves color depth and strengthens durability. PVD technology enhances resistance against wear, corrosion, and fading, ensuring that Madison retains its architectural clarity and luminous finish over time. A perfect union of disciplined design and enduring performance.

COUTURE PVD FINISHES

The Couture Collection is perfected through advanced PVD technology, enhancing its fluid design with lasting brilliance and superior durability.

Each finish is engineered to resist wear, corrosion, and fading ensuring that the purity of form remains untouched over time. From luminous Polished Gold to refined Matt Black and elegant Rose Gold, every tone complements the collection's graceful silhouette.

Technology protects the surface. Design defines the experience.

The Flow

The Couture Collection captures the essence of water in motion. Inspired by the purity of a single drop, its sculpted form reflects softness, balance, and natural continuity.

Every curve transitions seamlessly, allowing the design to feel effortless and fluid. Light glides across its surface, enhancing the graceful silhouette and refined detailing.

Couture is not defined by sharp lines or bold statements it is defined by movement.

A faucet shaped by nature. Refined by Italian design.

WALL MOUNTED BASIN MIXER

The Couture Wall Mounted Basin Mixer reinterprets the purity of a water droplet in a suspended, architectural form. Designed to appear as though it flows directly from the wall, its sculpted silhouette creates a sense of lightness and effortless movement.

In Matt Black, the fluid curves gain depth and quiet intensity. The finish enhances contrast, allowing the organic shape to stand confidently against stone and marble surfaces.

Minimal in structure, expressive in form Couture transforms the wall into a canvas of flowing design.

COU- T- URE SERIES

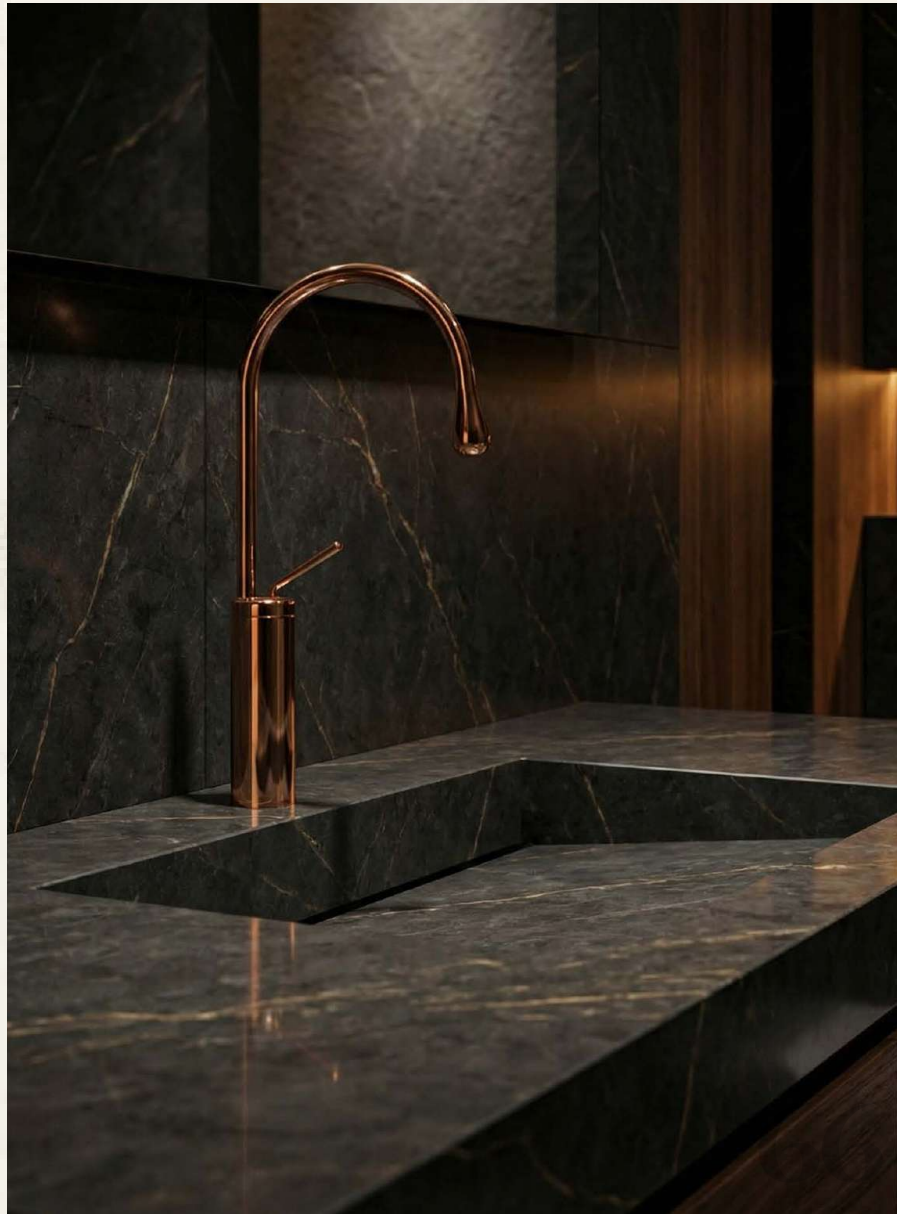

The Couture Collection takes its inspiration from the organic form of a falling water droplet, fluid, balanced, and naturally refined. Its soft transitions and sculpted curves echo the effortless movement of water itself.

Each element is designed to reflect flow rather than force, creating a visual language that feels calm, continuous, and harmonious. The silhouette captures the exact moment where water meets surface controlled, graceful, and precise.

Couture transforms nature's simplest form into a statement of modern Italian elegance.

Beyond its sculpted form, Couture is designed to interact beautifully with light and shadow. The smooth, flowing surfaces capture reflections softly, enhancing the natural warmth of stone, wood, and architectural textures.

More than a fixture, Couture creates an atmosphere, transforming the bathroom into a space of quiet balance and refined tranquility. Where water flows, design follows.

BRUSHED GOLD

“

The Como Kitchen Mixer embodies timeless elegance blended seamlessly with modern functionality. Its graceful high-arc silhouette creates a refined architectural presence while offering practical convenience for everyday use. The brushed finish enhances the purity of its form, while the subtle textured detailing at the base adds depth, character, and tactile sophistication. Designed for smooth performance and lasting durability, the mixer delivers effortless control and reliability without compromising aesthetics. Balanced in proportion and refined in presence, the Como Kitchen Mixer transforms the kitchen into a space where functionality meets understated luxury.

The Majestic Arc

The defining element of this design lies in its commanding arc – a sculpted curve that captures movement, grace, and strength in a single continuous form. Inspired by the natural posture of a swan, the silhouette rises fluidly before descending with poised precision, creating a sense of motion held in stillness.

Every contour is carefully articulated to reflect light and shadow, enhancing its ornamental detailing while preserving structural balance. More than a functional form, the curve becomes an expression of identity – bold, elegant, and unmistakably regal. It transforms the faucet into a sculptural centerpiece, where artistry and engineering exist in perfect harmony.

MAJESTY IN MOTION

Royal Swan is inspired by the grace, strength, and commanding beauty of the swan – a timeless symbol of royalty and refinement. Sculpted with flowing curvature and intricate detailing, each element captures movement within stillness. From the elongated neck to the finely articulated wings, the design transforms the basin into a centerpiece of classical expression and decorative mastery.

ABRZ

A close-up photograph of a luxurious golden faucet designed in the shape of a swan. The swan's head is on the left, with its neck curving upwards and then down to form the faucet spout. The swan's wings are spread out to the right, showing intricate feather details. The faucet is mounted on a polished, light-colored marble countertop. Two matching golden knobs with large, clear, faceted diamond-shaped handles are positioned on either side of the faucet. The background is a dark, textured wall, possibly stone or wood, which adds to the overall sense of elegance and grandeur.

A STATEMENT OF SOVEREIGNTY

Beyond function, Royal Swan stands as a tribute to heritage, artistry, and sculptural excellence. Every curve is intentional, every detail meticulously crafted to evoke the grandeur of classical European design. The coordinated mixers and shower elements extend its majestic presence throughout the space, forming a seamless narrative of luxury and refinement.

More than a fixture, it is an emblem of distinction — commanding attention while maintaining harmony. Its bold silhouette and intricate detailing transform the ordinary into the extraordinary, creating interiors that feel curated rather than constructed. Royal Swan is unapologetically expressive, crafted for spaces that honor opulence, celebrate legacy, and embrace timeless elegance with sovereign confidence.

WHERE FORM FLOWS INTO LIGHT

Dome 3 Hole is a study in graceful continuity. Its curved silhouette rises effortlessly, forming a gentle arch that feels both sculptural and serene. Paired with luminous crystal handles, the composition captures light with quiet brilliance – introducing texture without disturbing its purity of form.

Balanced in proportion and harmonious in placement, the three-hole configuration creates a refined dialogue between metal and crystal. The rounded geometry softens the architectural space, while the faceted controls add a subtle note of elegance. Understated yet expressive, Dome transforms the basin into a moment of calm sophistication – fluid in character, timeless in presence.
